

Hello we're DEAL team with myself Neha and jai . An app to locate the nearest petrol pump along the National Highways with details.

Find the cheapest gas station to refuel your vehicle.
Let's get started

The combined list and map view gives you an overview about the cheapest and nearest gas stations.

Cheapest shows all the petrol stations with respect to price.
And nearest shows all the petrol stations with respect to distance .

You're searching for a gas station with toilets? Just tap on a gas station and see what it can offer. Opening times, payment methods and price history all on one screen.

You're looking for analytics? The statistics help you to compare the average price among various cities .

Soo this is all about our prototype
Thank you.
